

# ~~HEPSYSMAN~~ Storage Meeting

## Birmingham Update

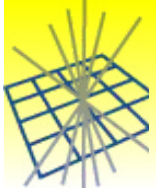

# STEP 09

- Swapped our eScience cluster for share of HPC
  - 320 job slots on offer
- Very low (WMS) job failure rate - 6<sup>th</sup> overall :-)
- Panda jobs were less successful
  - Jobs initially scattered between short and long queue
  - Moved to appropriate queue
- Low CPU/Wall ratio - 3<sup>rd</sup> lowest in UK :-(
  - Lawrie bonded network connections to pool node
  - Investigate rfio buffer size...

# RFIO Buffer

Variable RFIO Buffer
